WINES FROM SPAIN

DO NAVARRA

The D.O. Navarra wine region is located in the north of Spain, between the Pyrenees and the Ebro River Valley, with its main city of Pamplona. A key characteristic of the (Designation of Origin) D.O. Navarra area is the extraordinary diversity of its climate and landscape which spread across more than 100 kilometres – the regions proximity of the Bay of Biscay in the north and the temperate influence of the Ebro river plain to the south.

Soils within the D.O. Navarra are mainly calcareous and limestone, deep and relatively gritty, with variable texture and fertility, of medium to light consistency, soft and very healthy. A phenomenon which gives rise to the wealth and wide array of wines under D.O. Navarra; from robust, deep reds to fresh, elegant whites, while not forgetting the rosés which have always been the regions hallmark wines.

DO RIAS BAIXAS

Denomination of Origin (DO) Rías Baixas is renowned for the Albariño grape, an indigenous variety that produces some of the world's foremost white wines. Located in the Galicia region of northwestern Spain, the DO was formally established in 1988. Albariño has always been the flagship of this coastal region. In Rías Baixas unique climate, Albariño shares the same mineral-rich soils and cool climate as the world's other renowned white wine-producing regions, including France's Loire Valley, New Zealand, and the Rhine region of Germany.

White Wine

Pionero Mundi *Albariño* €33
Intense aromas blend perfectly with fruity notes, with tones of citrus fruits standing out, as well as hints of lemon verbena

Pazo de Bruxas *Albariño* €42
Brilliant yellow with a greenish edge. Intensely aromatic with white floral, citrus and white peach notes. Accessible, sweet and hedonistic upon entry. Notable for its clean acidity, which carries through on the midpalate. Long and persistent on the finish.

DO VALDEORRAS

Today, the Valdeorras region is steadily earning a reputation as one of the most exciting places to search for quality white wine in Spain. It is located inland, approximately 90 miles from the coast on the banks of the River Sil in south-eastern Galicia. The name translates into Valley of Gold and according to historians; this corner of the Ourense province may well have been where the first grapes were planted in Galicia by the Romans.

The wine is stunning. Expect a complex, age-worthy white unlike anything else in north-eastern Spain. Indeed, unlike the equally popular Albariño, which should generally be consumed soon after release, Godellos Chardonnay like structure means that it responds well to barrel aging and short-term cellaring. At its best, the grape offers powerful spicy and green fruit aromas, soft tropical fruit and a keen acidity. So in other words, an ideal wine to pair with the abundance of shellfish, fresh water and Atlantic fish that forms the standard Galician diet.

White Wine

Rogo *Godello* €42
Pale gold. Tightly focused lemon and quince aromas are complemented by deeper peach and honey qualities. Lively and sharply focused in the mouth, offering vibrant citrus and orchard fruit flavors and a spicy ginger flourish. Finishes taut, energetic and long, featuring lingering suggestions of bitter citrus rind and pear skin.

DO RIOJA

Rioja the home of bright, berry-scented, barrel-aged red wines made from Tempranillo and Garnacha is arguably Spain's top wine region. Located in northern Spain, Rioja's vineyards trace the course of the Ebro River for roughly 60 miles (100km) between the towns of Haro and Alfaro.

Rioja was the very first Spanish region to be awarded DO status, back in 1933, and in 1991 became the first to be upgraded to the top-level DOCa (see Spanish Wine Labels). The region's winemaking history stretches back to Roman times and has continued almost unbroken ever since.

Pronounced oak aromas and flavors are a quintessential component in the Rioja wine style (both red and white). The amount of time that a Rioja wine spends in barrel dictates which of the official Rioja ageing categories goes on the label: Joven, Crianza, Reserva or Gran Reserva.

DO RUEDA

Rueda is a wine region at the heart of the Iberian Peninsula, located just northwest of the Spanish capital, Madrid. It is known for its dry, aromatic white wines made predominantly from Verdejo, with small quantities of Viura and Sauvignon Blanc. These fresh, aromatic whites are an ideal complement to the heavy Tempranillo-based reds of neighboring Toro.

Standard Rueda Blanco must be made from at least 50 percent Verdejo, a variety so aromatic that even substantial additions of neutral-scented Viura (aka Macabeo) do little to reduce its character. Relatively recent additions to the region's wine portfolio are the varietal wines Rueda Verdejo and Rueda Sauvignon, which must be made from at least 85 percent of the stated variety

DO LA MANCHA

In the land of Don Quixote, wine plays a very important role both economically and culturally. The *Meseta Central*, a.k.a. Central Plateau, produces nearly half of the wine in all of Spain. Its also home to over a dozen top wine Spanish *bodegas* (wineries). The region contains Madrid and the surrounding areas in the high plateau of Spain. Its very hot and dry, so vineyards at higher elevations really shine. A value-driven region dominated by larger producers making mostly a fruity style of Tempranillo and Verdejo. Even though large producers dominate, the region shows potential based on its higher elevation vineyards.

DOQ PRIORAT

The remote, rocky hills of the Priorat wine region are the birthplace of intense, minerally reds that many wine writers and collectors consider to be Spain's most elite wines. The distinctive slate-and-quartzite soil (locally called llicorella), an abundance of sunshine and an energetic group of young winemakers have earned the region a reputation as one of Spain's most innovative.

The relentless relief of Priorat's landscape means that vineyards here are planted in steep terraces similar to those found in the Douro valley. The terraces climb the hillsides in neat, curving rows that seem drawn onto the land. On the steepest slopes, they are like enormous staircases, creating a pretty picture but back-breaking work for those who have to pick the grapes by hand; machine harvests are all but impossible here. The land is demanding, but it's also the ideal place to expose the most interesting characteristics of indigenous grapes like Garnacha, Cariñena as well as international varieties including Syrah, Cabernet Sauvignon and Merlot.

WINES FROM PORTUGAL

DOC VINHO VERDE

The region is demarcated since 1908 and is located in the extreme North of Portugal, bounded north by the Minho river, spreading along the Atlantic coast to the city of Porto, and south up to the shores of Vouga river.

The wine region of the "Vinho Verde" (Green Wines) is the largest in Portugal, with its 34000 hectares spread along a coast area geographically well situated, rich in water resources, with mild temperatures and abundant rains, which created homogeneous and mainly granitic soils, fertile and with high acidity, excellent for the production of white wines.

The brand image of this region is the variety Alvarinho. The flagrant typicality and originality result essentially of the peculiarities of the autochthonous varieties of the region and the way they are cultivated. From all these factors results a naturally light, clean, refreshing and aromatic wine, different from any other in the world.

White Wine

Casaz Novas

Avesso, Loureiro, Arinto

€31

Avesso, beautifully floral and aromatic, together with the fresh, fruity Loureiro & steely Arinto. Together they make a less austere, more commercially attractive style of wine, yet one that maintains good structure and poise.

DOC BEIRA ATLÂNTICO

Baga is the highly productive red grape of Beira, grown in Bairrada. In the past, the wines made with 100% Baga were known to be densely structured, blackberry-fruit driven wines with high acidity and a tar-like finish. Odd, because the wines were so structured they would stubbornly (and slowly) morph into refinement over the course of 1020 years. Today things are changing. With careful vineyard strategies and vinification (winemaking), you'll find a much wider range of Baga that are a stark contrast from Bairrada Clássico. From the aromatic and delightfully pink sparkling wines, structured light-bodied red that remind us of Pinot Noir, this area is one of the new frontiers of winemaking for the Portuguese. The wine geeks are very interested.

White Wine

Palacio dos Marqueses Branco

Arinto, Bical, Maria-Gomes

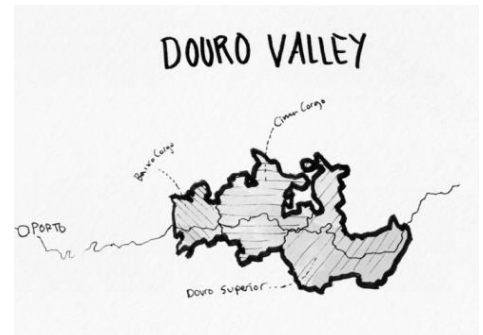

€31

Fruity with floral and citrus notes

DOC DOURO

Douro white wine is produced from grape varieties such as Malvasia Fina, Viosinho, Gouveio and Rabigato.
